

V-COM LED DIMMER

Art.nr.: MKP100.EU

Program: Varilight LED Dimmers

Category: V-Com

Product: TRIAC Leading Edge dim Technology

2-way Push-On/Off, Rotary LED Dimmer

From 0 - 100W (max 10 LEDs)

Without flickering with minimal dimming

Mounting: built-in (clamp and / or screw)

Diameter including matrix: 71x78x42 mm

Product weight: 85 grams

Installation depth: 26 mm

Suitable for existing flush-mounted boxes

Operating voltage: 220 / 250V AC

Maximum load: 100W (max. 10 lamps)

Maximum use: 0.4 A

Connection diameter: 3.2 mm

Connection: 3 x 1.5 mm²

Intended applications:

For indoor use only.

Commercial and household lighting circuits.

Safety advice:

Not suitable for use with NON-dimmable LEDs fluorescent lamps and tubes, wire wound or toroidal transformers or electric motors.
Do not overload.

Product Features:

- Can be used to replace dimmers in existing front plates
- V-Com advanced dimming technology
- Soft-start function and intelligent overload protection
- Automatic configuration with manual adjustment options for minimum brightness and dimming mode to optimize the performance of a specific LED lighting load

Safety standard:

BS EN 60669-2-1 / IEC669-2-1

EAN-code: 5021575001549

Tariff code: 85365007

Warranty: 10 years
